

Help Spread The Word About REVOLVE

**Do you like to help others?
REVOLVE SURE DOES!**

We here at Revolve are committed to helping companies improve. We want to reach as many organizations as possible, and the best way to do that is to involve as many people as possible. When you see a business needing improvement, give them our name- *They'll be happy you did!*

Why You?

It's simple. **You know people we don't. You're in places where we can't go.** Your network is more powerful than you might realize, and we want to be part of it. We think you should benefit from putting us in touch with people you think we can help.

"What's In It For ME?", you ask...

We don't have a marketing department, or armies of sales staff that we have to pay. Instead, we would rather give you a percentage of our contract fees in exchange for promoting us and helping us get more clients.

If we enter into a contract with a company you recommend, *we will compensate you*, either in cash, gifts, service discounts or trade (depending on the situation). The goal here is a WIN-WIN-WIN relationship between you, the new client, and us.

What We Offer Businesses:

Whether it's a dentist office, construction firm, oil company, restaurant, non-profit organization or, or anything in-between we can help!

- *Happier Employees*
- *Improved Performance*
- *More Effective Communication*
- *Increased Employee Retention*
- *Better Organization*
- *Improved Customer Service*
- *"Work Smart" (not hard) Solutions*

Revolve is Different:

We work to make companies better. We teach clients how to improve and keep improving long after we're gone. We don't sell fads or gimmicks. We offer straightforward solutions that organizations can implement, manage, and adapt as their needs change. *For us its about REAL IMPROVEMENT.*

How To Get Started:

Email referrals@revolveconsulting.com and we will add you to our list of referral partners. Then, read the short information pack we send you so you're clear about our company and what we provide clients. Then, just talk about Revolve when it's appropriate.
