

Agent of Change®

A Socio-Emotional Learning & Identity Development Curriculum

New Pilot Program

(R)EVOLVE Consulting, Inc., in collaboration with We End Violence, is proud to announce a new grade specific innovative curriculum that will empower students to create a safer, healthier, and more inclusive school.

Behavioral issues, lack of academic focus, disrespectful classroom behavior, bullying, online harassment, violence...

There are a LOT of challenges at a middle school, some of which can cause deep frustration for teachers and lasting damage for students. While there is no single solution, there is a path forward through a pragmatic investment in socio-emotional learning (SEL), which is a nationally accepted standard for developing well-rounded and academically successful youth.

The primary barrier is how to execute this type of learning without disrupting the other missions of the school. The Agent of Change curriculum is an honest attempt to overcome that barrier. The curriculum provides faculty with fun, experientially driven learning modules (so the students learn by doing & discussing. Modules require minimal teacher preparation, and empower students to support and hold one another accountable in promoting SELs. Train-the-trainer and technical assistance are provided to prepare campus communities adequately.

Content is grade-tailored with educational scaffolding for cross-grade cohesion.
